**Supreme Court Justice  
Harry Blackman**

**“We need not resolve the difficult question of when life begins. When those trained in the respective disciplines of medicine, philosophy, and theology are unable to arrive at any consensus, the judiciary, at this point in the development of man’s knowledge, is not in a position to speculate as to the answer.”**

so shall be judged a  
murderess of children* for  
she has caused a should

**“We say that women who induce abortions are murderers, and will have to give an account of it to God...*The fetus in the womb is a living being and therefore the object of God’s care.*”**

## Hippocratic Oath 3rd Century

I will use treatment to help the sick according to my ability and judgment, but never with a view to injury and wrong-doing. Neither will I administer a poison to anybody when asked to do so, nor will I suggest such a course. *Similarly I will not give to a woman a pessary to cause abortion.* But I will keep pure and holy both my life and my art.

In 1981, a group of physicians and geneticists testified before the Senate Judiciary Committee, with all in agreement that life begins upon conception.

*“To accept the fact that after fertilization has taken place a new human has come into being is no longer a matter of taste or opinion...**it is plain experimental evidence.**”*
